

Good taste in solutions

## QUALITY, ENVIRONMENT AND FOOD SAFETY POLICY

The aim of Calaf Nuances S.L is to provide the food industry with industrial solutions in flavouring and aromatisation through the design and production of aromas, in order to guarantee quality and safe products as well as respectful with the environment.

With this Quality Policy, Calaf Nuances' management states its absolute commitment to the quality, safety and environmental concern of all delivered products, in order to satisfy its clients expectations and also, to keep working on the **quality, safety assurance and environmental respect of all company's processes according to the standards ISO 9001, ISO 14000 and ISO FSSC 22000**, as well as to provide the conditions for **continuous improvement**.

The company thus, has as main objectives:

- **To improve and maintain the quality system set on the company.**
- **To keep innovating in our products according to the current market requirements.**
- **To strengthening Calaf Nuances' activity in the international market.**
- **Commitment to the protection of the environment and the prevention of pollution.**
- **Improvement in the management of waste and effluents.**
- **To provide for continuous improvement, with all the efforts and resources needed, in order to globally optimize the company and also, to comply with current regulations.**

Calaf Nuances' management sets annual quality, safety and environmental goals according to this policy, and periodically revises the Quality, Safety and Environmental Systems. Another important item is to guarantee safety and quality in the products produced under "Marca de Garantía Halal de la Junta Islámica" and in the products with Kosher certification. Also, the effort and collaboration of all employees is asked and needed.

Calaf Nuances' management assumes its ultimate responsibility on reaching the proposed goals regarding quality, safety and environmental concern so they will provide all the necessary means to make it possible.
